

NOTICE

PUBLIC SCOPING MEETING for the Yahoo! Project Environmental Impact Report

Date of Notice September 2, 2008

PROJECT APPLICANT: Yahoo!

PROJECT ADDRESS: 5010 Old Ironsides Drive, Santa Clara, CA 95054

PROJECT FILES: PLN2008-07218 / CEQ2008-01068

Yahoo! proposes redevelopment of an existing light industrial site comprising nine parcels in the City of Santa Clara. The approximately 48.6-acre project site is located on the south side of Tasman Drive, to the west of the Tasman Drive/Great America Parkway intersection, between Patrick Henry Drive and Old Ironsides Drive. The project involves the demolition of 10 existing office/R&D buildings, vacation of Democracy Way, and construction of an approximately three million square foot office campus development. The office campus consists of (13) six-story office buildings, (3) two-story auxiliary buildings with amenities for employees, electric substation, subgrade parking structure, site circulation, surface parking and landscaping. Approval of the proposed office campus development will require actions by the City of Santa Clara, including the preparation and certification of an Environmental Impact Report (EIR) to support proposed zoning amendments and other entitlements.

As the Lead Agency, the City of Santa Clara will prepare an EIR for the above-referenced Project. The City is seeking the views of Responsible Agencies and the public as to **the scope and content** of the environmental information that should be considered for inclusion in the EIR for the proposed project. The project description, location, and potential environmental effects are contained in the materials provided in the form of a Notice of Preparation (NOP). Distribution of the NOP is being provided on September 2, 2008 for 30-day public notice and review, and will close for public comment on October 1, 2008. The NOP is available from the Planning Division Office at the address below, and is available on line at the City's website [www.santaclaraca.gov].

You are invited to attend and provide written comments at the EIR Scoping session on:

When: Thursday, September 25, 2008 6:00 p.m. to 7:00 p.m.

Where: City of Santa Clara, City Council Chambers (see street address below).

The session will be approximately one hour long and, following a presentation of the project description, will provide an opportunity for agencies and the public to identify issues that they believe should be addressed in the EIR that will be prepared for this project. Written comments for the EIR scope and content will be accepted if they are received by October 1, 2008. If you wish to respond in writing, please send your comments to:
